

Proposal from Way Forward Group to develop marshal recruitment/registration pages, separate marshals URL and portal.

Site performance and availability remain good on new server.

Some members have reported they are unable to read .docx or .xlsx files. These are Microsoft Word and Excel formats introduced in Office 2007.

Microsoft publish a free, legal, supported upgrade for Office 2003 to enable it to read and write the newer formats. It works with Office 2000, Office 2002, and Office 2003, provided they are non-bootleg legal versions and have been updated with at least Service Pack 3.

The Microsoft Office Compatibility Pack can be downloaded from <http://www.microsoft.com/en-us/download/details.aspx?id=3>

Installation instructions are on that page.
