

SACC RTT CHAMPIONSHIP

September Report

The third round in the championship at Coneyhatch was cancelled due to works on the AWPR. The MSA approved a proposal to substitute the GAC Sprint at Alford as a scoring round in our championship to allow our registered competitors to score points. The weather was great all day, with bright sunshine and light winds the rain only starting to come on when the last competitive runs had been completed.

Only three of our registered competitors were in Alford to contest the event, and all managed to score competitive runs. The Championship Results are shown below.

Colin Baxter in his Impreza was the fastest of our registered competitors, but after the handicapping was applied Roy Kemp came out on top.

The last round is on Skye on 19th September.

Championship registrations this year have been poor, with only 7 competitors registered. The Mull RTT had 12 entries of which 3 were registered. The HCC round at Fort Augustus had 29 entries, by far the best of the season, of which 4 were registered. The substitute event for the third round attracted only 3 registered competitors, I hope to be able to report on the number entered for the Skye RTT at the meeting on 15th.

I have suggested to the organisers of the RTT rounds that we need to discuss the future of the Championship as the number of registrations is so low, and the number of competitors actually contesting the rounds is lower still.

Gerry Potter - Championship Co-Ordinator
