

I am David Law and I am going to be working as communications co-ordinator.

I will start to form links between discipline reps and club secretaries to spread the word on what events you are running.

I plan to create a newsletter style report possibly quarterly with upcoming/event info/news from the SACC/MSA to help bridge the gap between the SACC and your members. I will also continue to try and maximise internet and social media to relay info. A lot of clubs and Championship are doing an excellent job of promoting and keeping people up to date and will be good to group this info to a central source using the SACC website and FB page.

At the moment a lot of clubs in the SACC are associated with Rallying and there is the current focus on the Safety Review I think the reports by John Fife on this has been great and suggest as many people and clubs forward it onto their members.

Without taking away from the importance of this review it will be important not to over load with info as Interest levels may start to drop and to also make sure all other news gets reported.

Thank You

David Law
